

MARIETTA AREA RECYCLING CENTER

CARDBOARD SPONSORSHIP PROGRAM

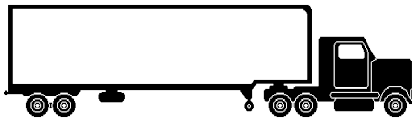

The volunteers at MARC are doing everything possible to maximize tonnage on the cardboard trailer to cover costs and continue offering cardboard recycling. **The first trailer pulled in February of this year under the new system contained only 4.43 tons and through packing efficiencies we now have reached 7.88 tons!** The last trailer hauled was our first breakeven load to cover just the haul rate.

Unfortunately, even with these efforts the revenue generated does not cover the fixed cost of the trailer on site or the drop in cardboard prices which have declined by 19% since the first of the year.

= \$125.00/MTH

Fixed Cost for Trailer on Site

= \$350.00/MTH

Haul to Athens Hocking
Recycling Center

(Closest paying market)

We are asking businesses that use the recycling center to consider sponsoring a portion of the cardboard hauling costs. **This would be a tax deductible contribution to MARC which functions under the 501(c)(3) of Rural Action.**

All sponsors who donate at the Fixed Trailer Cost Level or higher will be acknowledged on a sign posted on the steps of the Cardboard Trailer in full view for all of those who use MARC as well as on MARC's website mariettarecycling.org. We estimate that the Center offers exposure to over 1400 households in Marietta and the surrounding area. Your sponsorship will not only allow MARC to continue offering this recycling opportunity but will also be a green tax free donation and investment in the community.
